

MRS LOUISE I. BUXTON DEAD

Wife of Worcester Manufacturer
Asphyxiated at Home of Relatives
in New York City.

NEW YORK, Sept 13—Mrs Louise I. Buxton, 32 years old, wife of a manufacturer of Worcester, was found asphyxiated today in her room at 28 West 115th st. Apparently she had taken her own life through despondency due to illness.

Mrs Buxton was here on a visit to her sister and a cousin, Dr W. J. Leeds. She had been made melancholy by the prospect of a surgical operation which was to have been performed soon.
